## POD

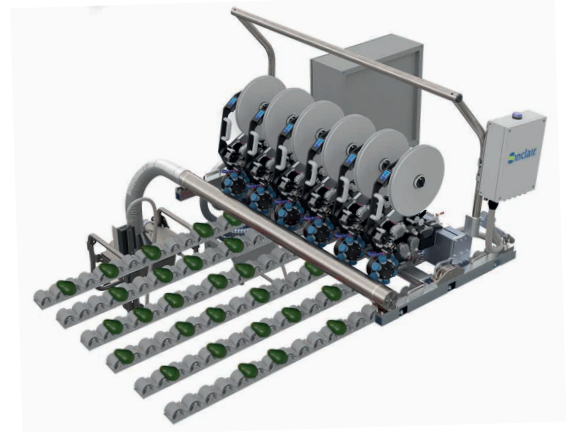

MULTI-LANE

Print variable information at the point of application with exceptional quality as fruits and vegetables are conveyed at speed. The Sinclair TruTab® label is the only tabbed label available for direct thermal variable print labeling applications.

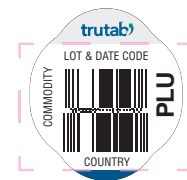

### TECHNICAL FEATURES

Labeling format	Multi-Lane
Multi-frame bank labeler installations <sup>1</sup>	•
Throughput - Fruit per minute per lane <sup>2</sup>	Up to 720
Number of lanes	1 - 12
Label sizes (width)	18-28mm
Selective labeling interface <sup>3</sup>	•
Fruit scanners - Label all (HOS) <sup>4</sup>	Optional
Applicators synchronize to changing line speeds	Auto
Lane-to-lane timing adjustment	•
Mounting options	Over sizer/grader with Interface
Manual machine frame height adjustment	Electric
Soft-touch, food-safe bellows label application	•
Quick change label cassettes	•
Empty cassette warning light & beacon	•
Chop & blow tape collection system	•
Electrical input voltage range <sup>5</sup>	⚡ 380V 50Hz 3Ph+E ⚡ 480V 60Hz 3Ph+E

<sup>1</sup>Suitable sizers only. <sup>2</sup>Final throughput speed and mounting options dependent on packinghouse configuration.  
<sup>3</sup>Requires a sizer output for each image input (up to 4) <sup>4</sup>Used independently of the Selective labeling interface.  
<sup>5</sup>380-480V 3Ph with Remote Cabinet only
